CHILD'S GUIDE TO THE CORAM ADOPTION SERVICE

(Please note this guide is designed to be used by an adult to support an adopted young child)

Coram helps families who want to adopt and give a child the love and security that comes from belonging to a family. You were adopted (**customise for the child – e.g. your two mums,**) and that is very special. But even when children are adopted and they know this is their forever family, sometimes children can feel upset or muddled. If you are feeling upset about your family or about adoption, Coram will try to help you.

Some children feel upset about all the moves in the past. It can be hard to understand why you had to move from the family you were born into, or from your foster family. The social workers at Coram can help you to understand your life story and what happened when you were little.

Coram goes on helping families for as long as they want. Sometimes we can help mums, dads and children to find better ways to practice being a new family and to have some fun times together. We can also help explain to teachers at school why a child may be finding school hard, so that the school can help. Some of the children have worries about someone from the past, and need to talk to someone who can try to help them with this worry.

If you have worries about being adopted or about something from the past, Coram's social workers will listen to you. We will also meet your mum or dad and try to find a way to help you.

Coram also likes to help adopted children to meet with other adopted children, and in the summer we have a picnic for all families who have adopted children in the past so everyone can get together and enjoy a special adoption celebration.
